NRW would not object to these proposals as we consider they are unlikely to have a significant adverse effect upon the interests listed

Protected Species

The application site has been subject to a preliminary ecological survey and assessment and the results of the Phase 1 Habitat Survey (reference: Knight, T. (2017/2018)). Proposed Residential Development on land at Lower Honkley farm, Stringer's Lane, Rossett, Wrexham.

The survey, assessment and results are appropriate and proportionate for the purposes of informing the planning decision making process. The ecology submission and results are therefore, satisfactory.

We have not considered potential effects on other matters and do not *rule out the potential for the proposed development to affect other interests, including environmental interests of local importance*. The applicant should be advised that, in addition to planning permission, it is their responsibility to ensure that they secure all other permits/consents relevant to their development.
