Emma,

I think I forwarded a later email from Tom. Hopefully this has the RAMs scheme attached.

Matthew

Dear Matthew,

Please find attached a copy of the Great Crested Newt Reasonable Avoidance Measures (RAMs) Method Statement. This document has been produced in order to satisfy the requirements of Condition 3 which was attached to the consent (Ref. P/2013/0244) for the creation of a slurry lagoon at New Hall Farm, Chirk. Marches

Ecology has been retained to implement the RAMs Method Statement including supervision of some parts of the works as required.

Should you require any further information please give me a call in the first instance. If at all possible I would be grateful for a prompt reply as the applicant needs to commence the works prior to the 8th May.

Kind regards

Tom Knight
