Subject: P/2017/0134 - Arboricultural Site Supervision - Boozey Fields, Stansty
Importance: High

Jon,

As requested, please find the arboricultural site supervision form with photographs for the Gower Homes site off Griffiths Road, Stansty attached.

Please note the following:

- Tree number 1 appears to be stressed and in decline exhibiting considerable dieback and dead wood throughout the crown. This is obviously not related to any development site works. Could you please take a look when you are next passing and advise the site manager Paul Woollam on what remedial works you will accept.
- The tree protective fencing has been erected to the full extent of the RPA of tree numbers 1 & 2 during the initial site works. This will be realigned to the position shown on the approved tree protection plan with ground protection boards laid prior to scaffolding being erected to construct plots 49 & 50. Photographs and site inspection of this will be forwarded to you upon completion.
- There is no tree protective fencing erected to the west of the site i.e. around G1-G3 as this area is not being developed at present. Fencing has been erected across the site from north to south to prevent access. The tree protective fencing will be erected around G1-G3 prior to this phase of development commencing. Photographs and site inspection of this will be forwarded to you upon completion.

If you have any queries, please call to discuss.

Regards

Alistair
