Matthew,

I have looked at the additional information submitted for the above planning application, however, at present I am still not satisfied that we have received sufficient information to be confident that the development is feasible on the site. Due to the complexity of the site and the surrounding area we are currently seeking an independent review of the information submitted to date. Upon receipt of these comments I will be able to recommend if we require additional information, refusal or if it can be dealt with via condition. I should be able to provide an update on timescales next week.

Kind regards
Stacey
