Dear Sir/Madam.

I am writing to lodge my objection to the above appeal, on the grounds of the visual impact on the environment. The sheer size of this company is a blot on the landscape I have lived in Chirk all my life and was proud to say so. Now I feel embarrassed because when you meet new people for the first time their first reaction is "how can you live with all that pollution on your door step. I think for future generations we owe it to them and get our priority right now.

Yours Faithfully
