Site Development of Raw Board Store

Site Address:  
Kronospan Ltd  
Holyhead Road  
Chirk  
Wrexham  
LL14 5AB

Dear Sir/ Madam,

I wish to lodge my objection to the appeal by Kronospan Ltd against the County's decision to decline the application for the development of raw board store.

There is a folder attached to this email that supplies a map, a video, and images taken from the public footpaths in the National Trust grounds of Chirk Castle, and from our garden. These should give an indication of how the site has changed over the last two years, and of the plumes from the factory. I live along the lane to the rear of Kronospan (please see map attached). As you can observe it is relatively close to the canal and is of a slightly elevated position.

Our property is adjacent to the National Trust Chirk Castle grounds, and our attached woodland is designated as SSS1. (Please see attached photographs of view from our garden and from the public footpath from Llwyn y Cil to the Castle) and can fully understand the worries that the factory will impact on the

views from the National Trust property, as indeed you can already see from images supplied.

We already have the new silos, conveyor belts and hoppers that have sprung up higher than we had anticipated and are very concerned that a 'block of stores 29 meters high will further create a blot on the landscape. (Please see images attached).

Again the company appears to be trying to run roughshod over the communities concerns.

Our, property along with 6 out of 8 properties, is of timber and brick. Its construction dates back to the 17th century. I have already stated in previous objections to the 'development' of Kronospan that I am concerned what the vibration from the factory maybe having on our ancient foundations. The noise from the plant is sometimes overbearing, when this occurs we are unable to have windows open at night during the summer. Please see attached video.

I ask you to please seriously consider the views of local residents and their concerns.

Yours Faithfully,  
Caroline Lea
