

Dear Sir/Madam,

With reference to the above planning appeal by Kronospan, I strongly object to this application being given approval because of the visual impact on the surrounding area, the size of the site as a whole, and the detrimental effect this company is continuing to have on the residents of Chirk. They have total disregard for any authority, including yours, as previous planning application approvals and public enquiries have shown. The ingredients on the packet are not always what you get from Kronospan.

There was recently a very bad fire on the site and one wonders when the next will be and to what end. This place is a disaster waiting to happen.

If by the grace of God this application is refused, we will then be subject to the sounds of how many local jobs are going to be lost etc., but unless I've missed something and Chirk has moved to Eastern Europe, they won't be local jobs at all, as most employees are now from this area.

On a final note, I would just like to remind everyone that these appeals have to be paid for and it's usually the poor old taxpayers who have to cough up, so if this is approved, we might as well throw away the rule book and let everyone build what they want, when they want, where they want, because that is what this company has been allowed to do for at least the last thirty years, and what's good for the goose!!!!

Yours Most Sincerely,
Linda Heyward.
