Matthew

Mike from GroundSolve has sent the attached letter and here is my response (please note that I have not provided this to him).

Based on the findings of the assessment of natural ground, I can confirm that I have no concerns regarding the use of the natural ground (won from the soakaway excavation) for the landscaped area on the development site, although the validation of its placement and suitability re-confirmed, is still required in due course.

Regards Angela

Hi Angela,

Latest testing from Pen y Bryn attached.

I will forward final remediation strategy when it has been agreed.

Regards

Mike
