PLANNING APPLICATION P/2015/0773

We live opposite the land with regard to this planning application and we are writing once again to make our objections known regarding this application. Previous applications – 6/22749, P/2000/0230, P/2011/0670, PG/2011/00011 and PG2011/20036 have all been rejected and once again we find that the applicants have appealed. Nothing has changed at the site, the applicant was given a period of 18 months to leave and make good the land other wise a notice of prosecution would be made. The Council have not enforced this and now we find ourselves having to make letter of appeal.

There is still excess noise and nuisance at the site. A Police presence is constant and there are significantly more caravans and people living at the site than the applicant, Mr Cash says. There is nothing new in the applicants planning application other than mentioning the fact that he wants this for family, who may be ill, when quite clearly the site is being used by other people other than his family, including individuals who are quite clearly of an Eastern European accent.

The applications have all previously been turned down and there is nothing different in this application. The land is still Green Barrier and is located outside the settlement limit and contravenes a number of policies.

Previous applications have been turned down and upheld on appeal. We see no difference in this application. This constant worry about this is having a detrimental effects on all our lives and although we know this cannot be taken into account – we are having our lifestyle and health affected by the constant stress. I can only hope that yet again this appeal will be rejected.

Yours sincerely
