Hi Heather

Thank you for the explanation.

Philip- I have no further comments to make

Regards
Henry

***** External Mail *****

Good morning both,

With regards to the above site, all new SW connections will outfall to the ordinary watercourse to the south. Where there is scope to separate existing connections to remove SW from the old system, this has been duly noted on the drawing. However, there are likely to be some SW connections to the north that are present on the existing building which are not being modified.

Apologies for any confusion, it may have been due to a line type error. Please see the latest indicative drawing attached.

Kind regards,

Heather Palmer-Jones BSc (Hons) FdSc
