Matthew

Further to my emailed dated 16 August 2016, I have now received the attached a letter for the above site regarding the outstanding issues for the asbestos assessment. I can confirm that I am satisfied with the findings of the letter and whilst it is not stated in the letter am aware that no amendments to the remedial strategy are required due to this further work which has been undertaken.

Therefore I can advise that condition 3 could be discharged.

I would advise that until verification details are submitted and approved Condition 4 should not be discharged.

Regards Angela

Ms Angela Guy
