15th May 2015

Dear Sir/Madam,

I am delighted to support this planning application on the basis that our mission statement is to ensure eggs produced and packed in Wales are available in every part of Wales as the most competitive option to customers.

The Griffiths family are the sole owners of Oaklands Farm Eggs Limited and are proud of our Welsh heritage. We operate our packing station in Ruabon, investing in North Wales and provide national coverage for our producers eggs. We also operate from Lampeter, ensuring jobs are available in transport and distribution and travel daily from the North through to South Wales.

We work with vibrant family owned farms that are the backbone of rural communities, working 365 days a year providing real jobs for real people.

Modern facilities are needed to meet the specifications required today to meet the British Lion brand, ensuring eggs are produced to the highest standard of shell egg for consumption and on the scale required to compete in a very aggressive market place.

We cannot give price promises due to market fluctuation but totally support this application and hopefully look forward to working with Julian and Emma who are conveniently located in the county of Wrexham, only 10 miles from our packing station in Ruabon at Cae Mor Farm.

Regards,

Sue Mintz on behalf of
Elwyn Griffiths
Owner and Commercial Director
