THE CODE FOR SUSTAINABLE HOMES

INTERIM CERTIFICATE

(Issued at the Design Stage)

Certificate Number: STRO007620-DS-20137232134609

Score: 61

What Your Code Star Rating Means

Combined Score	36-47	48-56	57-67	68-83	84-89	90-100
Stars	1	2	3	4	5	6

The Code for Sustainable Homes considers the effects on the environment caused by the development and occupation of a home. To achieve a star rating a home must perform better than a new home built to minimum legal standards, and much better than an average existing home.

How this home scored

Category	Percentage of Category Score attained												What is covered in the category
	0	10	20	30	40	50	60	70	80	90	100		
Energy	68												Energy Efficiency and CO2 Saving measures.
Water	67												Internal & external water saving measures.
Materials	42												The sourcing & environmental impact of materials used to build the home.
Surface Water Run-off	100												Measures to reduce the risk of flooding and surface water run-off, which can pollute rivers.
Waste	62												Storage for recyclable waste & compost. Care taken to reduce, reuse/recycle construction materials.
Pollution	100												The use of insulation materials and heating systems that do not add to global warming.
Health & Wellbeing	58												Provision of good daylight quality, sound insulation, private space, accessibility and adaptability.
Management	22												A Home User Guide, designing in security, and reducing the impact of construction.
Ecology	67												Protection and enhancement of the ecology of the area and efficient use of building land.
