Hi Phil

Ok thanks, if it is already a garage and office then the proposed changes don't make it any more sensitive so we won't have any comments regarding land contamination.

Thanks Angela

Hi Angela,

This isn't the best submission I've seen. From what I can gather, this will be a mixed use development of a car repair garage and a taxi office. The permission will allow the operation of the private hire vehicles and the office to be used for that purpose. There don't appear to be any changes proposed to the existing garage or office.

Hope this helps but come back to me if not.

Phil

Hi Phil

I'm just look at the above application, the upload onto the planning webpage called 'existing floor plans' doesn't seem to work and I can't see anywhere else that explains what the current use is, other than light industrial. Do you know please?

Thanks Angela
