Hello Matthew

The missing plan is obviously key – I would hope that it covers the remainder of the external area of the dairy (other than the staff car park area).

The submission is rather brief. Details of the content of staff induction training and the details and frequency of ongoing training routines referred to would be useful. The Company would be expected to document such training and keep appropriate records.

Regards Nick

Nick,

Further to our conversation this afternoon, could you take a look at the details submitted on file P/2015/0911. The submissions are those required by conditions 8 and 19 of permission P/2015/0377.

There seems to be a plan missing and there also seems to be some confusion on their behalf as to the area condition 8 applies to by those matters can be easily rectified – I would make sure that is clarified before issuing a decision. What I really need to know is whether you are happy that the submission is adequate in terms of meeting the requirements of the condition.

Regards

Matthew Phillips
