Hi Philip,

Please see attached the 'sample board' with images of materials proposed for the development. We would still request materials are conditioned for final approval but this gives you the palate we have in mind.

We would be grateful if you could advise of requirements with regards to the Highways Department observations at your earliest convenience please.

I will be on holiday from the end of the week so would like to make sure you have all the necessary information to make a decision before then.

Regards,

Craig Barron
