Thank you for consulting us on the above application, which we received on the 19th May 2016.

We have no objection to the application, but have the following comments:

The site benefits from an Environmental Permit from NRW. The site operator should ensure that the Environmental Management System and all associated relevant technical standards / procedures are amended to reflect these changes. The site operator should review and amend accordingly the noise and vibration management plan as per permit conditions. The operator should ensure that other permit conditions are not breached as a result of these changes i.e. waste quantities etc. For further information regarding the Environmental Permit, please contact Rhys Ellis, Waste Regulation on 0300 065 3543.

Our comments above only relate specifically to matters that are included on our checklist "Natural Resources Wales and Planning Consultations" (March 2015) which is published on our website: (<https://naturalresources.wales/planning-and-development/planning-and-development/?lang=en>). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests, including environmental interests of local importance. The applicant should be advised that, in addition to planning permission, it is their responsibility to ensure that they secure all other permits/consents relevant to their development.

Yn gywir / Yours' faithfully,

Mr. GARETH THOMAS
