Subject: P/2016/0334 Plas Crogen, Selattyn - Refurbish and reposition 11kv OH line

Dear Sir or Madam

Thank you for the consultation on this application.

Information held within the regional Historic Environment Record indicates that the proposed line repositioning will entail works to an existing pole which appears to be located within the scheduled monument area for Offa's Dyke (SAM De 136). Pole 32 is currently within the scheduled area and any associated ground work to install a repositioned line may directly impact the scheduled monument.

We would therefore advise that the applicant is required to contact Cadw to discuss these proposals and the potential need for scheduled monument consent. The contact in Cadw would be: Will Davies (Regional Inspector) will.davies@wales.gsi.gov.uk

No works should progress here until this consultation has taken place and Cadw have advised further.

Kind regards

Mark Walters
