Hi Jeff,

Thank you for your email with reference to the refusal of planning permission no. P/2015/0191. I'm not sure that got all of your message because it is written in the subject box and you may have run out of space.

I think that you are asking me if I would support a new application based on the planting that you have carried out so far and a tree that you intend to plant? I confirm that the planting carried out and proposed does not impact upon the decision because the planting of vegetation does not have the same permanency as built development. The development as proposed remains unacceptable because of the impact upon the amenity of the occupiers of the adjoining dwelling.

As you have previously indicated is your intention, and in the absence of an amended scheme, I advise that you make your Appeal to the Planning Inspectorate.

Kind regards
Sharon
