Subject: P/2016/0257 Rhuddallt Mil, Tan Y Llan, Ruabon - Photographic Survey
Attachments: PHOTOADVICE.DOC

Dear Sir or Madam

Thank you for the consultation on this application.

Information held within the Regional Historic Environment Record indicates that although the development appears to have limited archaeological implications the proposals will affect a traditional stone cottage building which appears on the 1840 tithe mapping and is therefore at least 175 years old. The building is of local interest and may have originated as a mill. The proposed extension will mask much of the historic stone fabric on this side of the building, which displays various changes over time. It would be unfortunate if this façade of the building was now altered without some form of record of its current architectural style and present form being made.

I would therefore ask that the applicant is required to carry out a photographic survey (comprising photographs in high resolution digital format showing each existing internal and external elevation and the site's general location) before development commences, in order to preserve a minimal record of this building. To facilitate this I would ask that an appropriate planning condition is attached to any permission granted, and I attach a suggested condition which you may wish to consider using.

Suggested planning condition to facilitate a photographic survey, in accordance with an English Heritage Level 1 specification, prior to development

Development shall not begin until an appropriate photographic survey, equivalent to an English Heritage Level 1 study, of the existing building/s has been carried out in accordance with details to be submitted to, and approved by, the Local Planning Authority. The resulting digital photographs should be forwarded on a CD to the Local Planning Authority and the Development Control Archaeologist, Clwyd-Powys Archaeological Trust, 41 Broad Street, Welshpool, Powys, SY21 7RR. Email: markwalters@cpat.otg.uk Tel: 01938 553670. After approval by the Local Planning Authority, a copy of the photographs should also be sent to the Historic Environment Record Officer, Clwyd Powys Archaeological Trust for inclusion in the regional Historic Environment Record

Reason: To secure a basic record of the original building which will be refurbished.

I have also attached a guidance note on the completion of photographic surveys, which should be forwarded to the applicant so that they are fully aware of the requirements.

Kind regards

Mark Walters
