

Dear Anna

**Re: P/2016/0010 Trevalyn Hall, Chester Road, Rossett, Wrexham,
LL12 0HH**

Thank you for consulting the Council for British Archaeology (CBA) regarding the above application relating to this Grade II* Listed Building. I took this application to our Casework Panel on the 27th January 2015 where we considered the documentation and I now write to you with our comments.

During the process of upgrading the property the owners have discovered a high quality C16 fireplace behind a C19 fireplace. The owners wish to remove the later fireplace and relocate it to another room exposing the C16th fireplace entirely, with reinstatement of missing left jamb.

The panel considered that the proposal was acceptable, given that the country house has been much altered over time and that this would be part of its continuing story. We consider that recording would be necessary as mitigation for the interruption in the archaeological timeline and the results to be lodged with the appropriate bodies (e.g. CPAT's HER). Panel also suggested that ensuring the new jamb and any conservation to the lintel were recognisable as C21 interventions would be beneficial. As a suggestion, perhaps the year could be carved into the new stone.

I trust these comments will be useful to you; please do not hesitate to contact me if you need further assistance. Please keep the Council for British Archaeology informed of any developments in this case.

Yours sincerely,

Cyllene Griffiths

CBA remit:

The Council for British Archaeology (CBA) was established in 1944 and is the national amenity society concerned with protection of the archaeological interest in heritage assets. Local planning authorities have a duty to notify the CBA of applications for listed building consent involving partial or total demolition, under the procedures set out in ODPM Circular 09/2005 and in Welsh Office Circulars 61/96 & 1/98.
