LANDSCAPING OF SITE TO INCLUDE NEW INCREASED CAR PARK AND SOFT LANDSCAPING  
COLEG CAMBRIA BERSHAM ROAD WREXHAM**

Thank you for consulting the Welsh Historic Gardens Trust on this application.

The application site is located immediately to the north of Wrexham Cemetery, a Victorian garden cemetery which is grade II on the Register of parks and Gardens of Historic Interest in Wales.

The buildings on the Coleg Cambria campus which face Bersham Road are quite conspicuous from Wrexham Cemetery. The existing block (A) is particularly visible due to the light coloured roofing material and the use of a sharp coloured turquoise/green paint.

WHGT does not object to this proposal however the colour of the new building should be carefully considered to minimise the visual impact from the cemetery. It would be beneficial if the proposed tree planting included species which will help soften views of the college buildings in the long term.
