Hello Matthew

The weddings will be subject to Temporary Event Notices (TENs) with the Council's Licensing Section This is acknowledged within the Application information. There will be opportunity to control amplified music noise via the TENs regime.

The other proposed activities shouldn't cause any noise issues to noise sensitive properties greater than 250m distance away.

Regards Nick

Nick,

We had a public protection response on the 11th of January for the above. The Environment Protection response is no comments.

However the application proposes the use of the site as a farm activity centre for 48 days per annum (the initial description was 24 but this was in fact an error). This will involve:

Sheep Gathering
Tractor Driving
Pig Herding
Welly Throwing
Egg Throwing
Tug Of War
Greasy pole
Relay Race

The site is also to be used as a DIY wedding venue for 12 days per annum.

The site adjoins the A495 and is at least 250 metres from the nearest properties however would you normally recommend some conditions in terms of noise or controls over when amplified music could be played?

Regards

Matthew
