Hi Phil,

The report submitted is the same as the original submission, stating the same recommendation that a final assessment be conditioned based on final design/layout for the site. The submitted drawing details the location of 2 swale structures but does not add further detail as to sizing/dimensions etc.

I would recommend that finalised design layout and calculations are required be able to discharge the condition.

Thanks

Neil

Hi Neil,

I've had some additional detail sent through following your previous comments on the above. I assume that the management plan you have already seen. I think the plan shows the location of a linear swale.

Let me know what you think.

Many thanks

Phil
