4 September 2013

Dear Mr Greenland,

SP Manweb PLC - Electricity Act 1989: Section 37 Consent issued by the Secretary of State on 13 May 2013 - Legacy to Oswestry 132kV Overhead Line

It has been brought to the attention of the Secretary of State by SP Manweb plc, that the consent documents issued by him on 13 May 2013 refer to drawing G700.03.001A and not to drawing numbers G700.03.132, G700.03.133, G700.03.134A and G700.03.135 as agreed between SP Manweb plc and Wrexham and Shropshire Councils during the course of the public inquiry and noted in the Inspector's report.

The Secretary of State has carefully compared the route in drawing G700.03.001A to the route in drawings G700.03.132, G700.03.133, G700.03.134A and G700.03.135. He has found that the overall route remains unchanged and the error is therefore confined to an incorrect drawing number reference in the documentation he has issued. The Secretary of State considers that the section 37 consent and deemed planning permission should be read as if it refers to the four map references as this has no bearing on the consented route.

I am copying this letter to Julia Dixon, Squire Sanders (UK) LLP for information.

Yours faithfully,

Denise Libretto
Head, Networks
