

kronospan

axis

Key:

Proposed Stack Location

Area where the existing 65.5m SEKA filter stack and the proposed 70m stack would both be theoretically visible

Area where only the proposed 70m stack would be theoretically visible

Note - ZTV illustrates worst case scenario and excludes the screening effects of vegetation and man made structures

Kronospan Biomass Plant

Figure 7.4

Zone of Theoretical Visibility

Scale
1:50,000@A3
