YOUR COMMENTS ON THE CASE (continued)

All my original comments still stand.

I can't believe this much Fuss is being made for 1 person + 1 car. When there's not really any need.

The large gates will stop any access for any emergency vehicles. And there's nothing environmentally friendly about changing a field into a driveway.

If this would allow access to all the houses at the rear and those who's houses back on to the area it would be different.

NOT for 1 person and 1 4x4 vehicle.

This would allow further application for further development between the houses and the nursing home across the field, and before we know it, it will all be filled in with houses or buildings.

It's called green belt for a reason it should stay green.

If you want a house with a private drive, then you should buy a house with one!!!

This hasn't been a problem for nearly 10 years why is it a problem now??

I strongly disagree with this application.
Stop wasting tax payers money + time on a whim!!!
