Sharon

The revised layout plan appears ok providing the applicant has agreement to cut across 3rd party land.

Morning Both

Following conversation earlier this morning, please find enclosed a copy of the site plan with visibility splays indicated. I have also put a note on confirming that the splays are protected by the previously implemented permission of the 5 units.

The original access/permission will ensure that the access is always retained for the use of all barn conversions which are now occupied.

Could you please confirm that the highways aspects of the application have been satisfied and I will forward the Newt report and Conservation method statement at the end of the week/beginning of next.

Regards

Stuart
