Gerry

With reference to planning application P/2011/0769 for the development and operation of a Mechanical Biological Treatment Plant and ancillary facilities, please find attached the following documents:

- Bryn Lane – Ecological Mitigation Statement ref C170/Stratus/MS dated 20th December 2011.
- Bryn Lane – Ecological Management Plan ref C170/EMP dated 21st December 2011.

The intention of the Ecological Mitigation Method Statement is to guide ecological mitigation/ compensation measures (as previously identified in the Environmental Impact Assessment), and is provided as supporting information to the planning application. Similarly, the Management Plan concerns an area shown as the 'Mitigation Area' on the '*Landscaping Proposals*' plan submitted with the planning application. It had previously been referred to as the 'compensation area' in the Ecological Impact Assessment, Volume 2, Appendix 10.1 of the submission documents submitted with the application.

Regards, David
