Subject: Fwd: FW: Development at Erbistock (P/2011/0151)

Matthew

Please find attached a revised Site Plan 001A with amended wording to address the hedgerow issue as discussed. Please regard this plan as a replacement to the original plan 001 submitted as part of this application. I trust this is sufficient address Phi's concerns regarding highway issues (you will note that the wording on the plan requiring hedgerows within the visibility spays to be reduced below 1.0m does now cover Phil's final point in his e-mail to me generally OK'ing the revisions we have made).

I trust this is acceptable. Please let me know if it is not.

Please acknowledge receipt of this e-mail and that this plan will be the one considered and displayed at Planning Committee.

Regards

Harry
