Attachments: Adventure Play 1 (amended).pdf; Gwenfro Pic.doc

Can this be put on P/2011/0358 as additional information

Thanks

Subject: Plas Madoc Adventure Play

Hi Louise,

Further to our telephone conversation regarding the proposed Adventure Playground at Plas Madoc.

The fencing of the Adventure Playground will provide a secure perimeter within which, young people will determine self-build options for adventure play equipment. This will reflect the play needs of the community of Plas Madoc. The "organic" nature of Adventure Play will then source natural and manmade materials that will enable the children to participate in self-build to ensure that they are in control of the equipment, space and result in the constant evolution of the playground.

All structures that will be created will be "fixed" but essentially temporary in nature and will be destroyed or removed when the play value has diminished.

As the play equipment will be selected and built after the completion of the perimeter, and once the Adventure Playground is up and running, it is not possible to provide specific detail of what it might entail. However, for illustrative purposes I am able to provide a photo from Gwenfro Valley an existing Adventure Playground, which has been supported in Wrexham for many years. This playground together with the Venture makes up the Adventure Play Network in Wrexham and will share experience and good practice with our new facility.

Equipment in Plas Madoc will not necessarily mirror the other two areas, as it will be specific to Plas Madoc and its needs, but it will be consistent in terms of the limitations of self-build play equipment.

Hope this helps and if you require any more information please don't hesitate to contact me.

Many Thanks

Claire
