Subject: Re: Possible building at back of houses

Hi Wrexham Planning Admin,

Please read my e-mail once again - I am not lodging a complaint at this stage. Maybe I should have used "Your message is a formal complaint" instead of "This message" to avoid any confusion.

I was objecting to Laurie Jones using my name and, by implication, suggesting that he was lodging a complaint on behalf of all the residents named in his e-mail.

In the meantime I will wait to see what the eventual planning application may show before deciding whether to object or not.

Here follows the text of my e-mail to Laurie Jones - the site is mentioned in the text of his e-mail which, is also attached below.

Regards,

Tony Gaynor.

Laurie Jones,

I gave you my e-mail address so that you could keep me up to date with what was going on with regard to the development at the side of my property.

This message is a formal complaint about noise and the process regarding the works being carried out. Although I would have to agree

that there has been lots of noise and, no notification of work carried out and, possible infringements of planning rules; I did not give you carte blanche to use me or my name in any protest you decided to make to Wrexham Council Planning Department.

We have not discussed this protest - we have not agreed to present it as a group of householders.

In future, if you want to add my name to any communication with anyone whosoever - please consult me and get my permission to add my name to your protest BEFOREHAND!!!!

Tony Gaynor
