P/2010/0327 Proposed Highway Improvement Plas Coch / Mold Road / Berse Road, Wrexham

I refer to your letter dated 23 April 2010 regarding the above and apologise for the delay in responding. The proposal seeks to improve traffic flow in the vicinity, which will have a beneficial effect on trunk road traffic leaving the A483. The Assembly therefore does not wish to issue a direction with respect to this proposal. Please ask Wrexham CBC Highways Department to keep us informed of any changes to the trunk road infrastructure, should these be required at the tie in of the scheme.
