CDMH&S

NOTES / KEY:

- Proposed retaining wall
Refer to WSP engineers details
- Existing trees to be retained and protected during construction. For further details refer to 421ALD-RP011
- Trees to be removed due to development
- Trees to be removed due to health (none found on site)
- Root Protection Area (RPA)
All areas within the RPA are hand dig only. No site storage within the RPA
- Shrubs to be retained
- Shrubs to be removed due to development
- Trees not surveyed
- Tree Protection Fence Line
To protect areas within the RPA. No site storage within the fence lines.

In the event that certain operations will be acceptable within the RPA, (in particular trees T2, T13 and T17) these should also be accompanied by a Method Statement which details the careful implementation of the works with appropriate mitigation to ensure unnecessary damage is not inflicted to the roots.
