

DAVE DEMSTER
ELECTION CONTRACTOR
TOP BANK, CHIRK, NR OSWESTRY

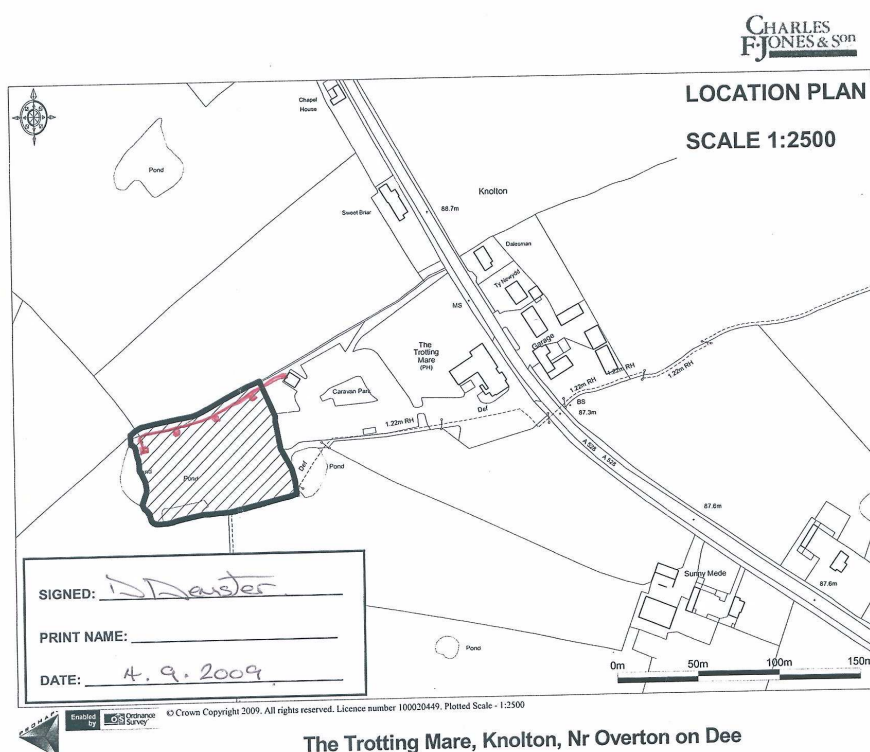

Dear gary,

I hope this letter can be some help to you as unfortunately i only keep records up to 8-10 years,concerning the electrics that I put in to the caravan park. The supply I put in to the toilet and shower block was in the year 1996 which then was distributed from the main fuse box around the site the area which you are concerned about I have marked it in red the route of the cable where I put 4 electric boxes with 2-3 plugs on each box,this was done at the same time as when we put the main supply in.

Yours faithfully

Dave demster
