

Further to your email regarding planning permission to convert the Worthenbury Arms to residential use.

We strongly object as the condition of the original application for the houses to be erected on the adjacent site stated that the pub would be reinstated.

Worthenbury, as a village requires restoration of community amenities including a public house and village store.

Providing such would be of more benefit to the residents than further residential buildings.

We trust this will be taken into consideration when looking at this appeal.

Regards

Marian & John Harrison
