

Planning Ref: P20090449

Welsh Assembly Government Ref: H6955/A/10/2122444

Dear Sir/Madam

I am contacting you regarding the above request for planning permission. I would like to express my concerns about the possible drilling of a bore hole in the area and my agreement with the reasoning of Wrexham County Borough Council. I have lived in the area for over 30 years and one of the most pleasant features of the area is the peacefulness. Both of my parents live in the area also and we all feel that our quality of life would be affected the potential of noise 24 hours a day. This is an area where there is very little background noise which would be ruined by hydraulic drilling.

I am also concerned about the increase in traffic Wrexham County Borough Council have sited as the second reason for rejecting planning permission. I am in total agreement that the roads are not suited for industrial traffic. The roads are only sufficiently wide for one vehicle and do not have passing points or pavements. Many residents enjoy walking their dogs around the roads which will only become more hazardous with an increase in traffic.

I hope in this case quality of life for the residents becomes a priority over the financial gain of an energy company and the appeal is also refused as the original request was.

Yours faithfully

Rachael Jackson
