2	Acer campestre	10-12cm	Bare Root	
	Hedgerow - planted in double staggered rows			
400	Hawthorn	40-60cm	1+1 Transplants	5/m

Specification Summary

PLANTING NOTES: All plants to be supplied in accordance with HTA 'National Plant Specification and from a HTA certified nursery. All trees and plants to be supplied in accordance with BS3936: Part 1 (1992) and planted in accordance with BS4428 (1999). Delivery and handling of all plant material to be in accordance with CPSE 'Handling and Establishment of Landscape Plants 1996'. All plants will be watered in a field capacity immediately after planting.

Tree Planting – All trees to be in accordance with BS 3936/5236, to be planted and securely staked and tied in pits 1000x1000x750mm backfilled with topsoil mixed with 40L of mushroom compost, ensuring that tree pits are a minimum of 75mm deeper and 150mm wider than the tree roots. Base of pits to be broken up to a depth of 150mm. The base of trees are to be covered with 75mm depth bark mulch to 1.0 metre diameter and kept weed free.

Hedge Planting – Hedge plants to be in accordance with BS 3936. All plants shall be 40-60cm or 1+1 transplants, notch planted in double staggered rows at 300mm centres (or as scheduled). Well water plants immediately after planting and prior to spreading of mulch. Planted areas to be covered with 75mm depth bark mulch and kept weed free and protected from rabbits by spiral guards.

WEED CLEARANCE: Areas to be planted and shall be cleared of any grass and weed growth physically and/or chemically with translocated herbicide (glyphosate based) prior to cultivation operations. All roots of perennial weeds shall be removed. More than one application may be necessary to ensure eradication.

Maintenance and making good defects

The landscape contractor shall maintain all the planting areas for a period of 12 months following practical completion. All planting areas are to be kept weed free for the duration of the maintenance period. All plants that are found dead, diseased or dying at the end of the first growing season shall be replaced at the contractors own expense in the next available growing season.
