Hi Mared

Principally because it's close to Mondelez, but any survey should also capture any noise from other industrial sources.

Yes I think as a condition would be best.

Paul

Hi Paul

Hope you're keeping ok?

Just a quick one for the above application, an informative has been recommended on the response (A26N) for a noise survey to be carried out. Is this because of Kronospan, and do you want this as a condition rather than an informative?

Thanks

Mared
