

Project Name: 3-9 Hope Street, Wrexham
Author: RA
Project number: P21-1007
Reference: P/2021 /0161
Date: 13 April 2021

Dear Bryn,

Following the comments received from the Waste Strategy Officer regarding additional detail to be provided for the waste and recycling plan, our client has confirmed the following:

- The use will be served by 2 bins
- The bin capacity for each bin will be 1100 litres.
- The collection of bins will be undertaken via a private company.
- The collection of both bins will be once a week.
- The bins will be stored in the service by to the rear of the unit
- It is not anticipated that the proposed use will generate significant amounts of waste as the majority of processes undertaken will be electronic rather than paper based

Yours faithfully,

A handwritten signature in purple ink, appearing to read "REBECCA ALLEN".
