

The image displays two architectural floor plans side-by-side, illustrating a proposed extension to an existing building. The plans are oriented horizontally, with a vertical grid line labeled 'A' on the left and a horizontal grid line labeled 'D' at the bottom. The existing building is shown in a light grey outline, while the proposed extension is shown in a darker grey outline.

view before extension: This plan shows a rectangular building with a width of 7600 and a height of 6000. The interior is divided into several rooms by walls. A central vertical wall divides the space into two main sections. There are several smaller rooms and corridors. The dimensions 7600 and 6000 are indicated with arrows and text.

view after extension: This plan shows the same building as the 'view before extension', but with a new extension added to the right side. The extension is a rectangular structure with a width of 2400 and a height of 1400. It is attached to the main building via a narrow corridor. The dimensions 2400 and 1400 are indicated with arrows and text. The extension appears to be a new addition, possibly for a kitchen or dining area, given its proximity to the main entrance area.

Title Block: The title block is located in the bottom right corner of the drawing. It contains the following information:

- UNLESS OTHERWISE SPECIFIED:
 - DIMENSIONS ARE IN MILLIMETERS

Architectural drawing showing two views of a room extension:

- view before extension:** A rectangular room with a width of 7600 and a height of 6000. It features a central vertical partition and a horizontal partition near the bottom. There are four doors: one on the left wall, one on the right wall, one on the top wall, and one on the bottom wall.
- view after extension:** The same room as shown in the first view, but with an extension added to the bottom right corner. The extension is a rectangular area with a width of 2400 and a height of 1400. It includes a door on the right wall and a window on the bottom wall.
