2. Plans and particulars of the reserved matters referred to in condition 1 (above) shall be submitted in writing to the Local Planning Authority before the expiry of three years from the date of this permission. The development shall only be carried out in strict conformity with such details as are approved.
3. The development hereby approved shall be commenced before the expiry of five years from the date of this permission or before the expiry of two years from the date of approval of the last of the reserved matters required to be approved, whichever is the later.
4. The approved plans to which this permission relates is 1:1250 Existing/Site Location Plan and 1:500 Existing Block Plan.
5. No part of the development shall commence until an appropriate Dust Management Scheme has been submitted to and approved in writing by the Local Planning Authority. The dust mitigation measures as are approved shall be fully implemented for the entire duration of the construction phase.
6. No development shall take place until a phased site investigation of the nature and extent of contamination has been carried out and submitted to and approved in writing by the Local Planning Authority. If any contamination is found during the site investigation, no part of the development shall commence until a scheme specifying the measures that will be taken to remediate the site to render it suitable for the development hereby permitted has been submitted to and approved in writing by the local planning authority. The site shall thereafter be remediated in accordance with the approved scheme. If during the course of development any contamination is found that has not been identified in the site investigation, no further development shall take place on those parts of the site where that contamination has been found until an additional scheme of remediation has been submitted to and approved in writing by the local planning authority for those parts of the site. The relevant parts of the site shall thereafter be remediated in accordance with the additional scheme of remediation.
7. Each part of the site subject to the remediation under the scheme(s) approved as part of condition 06 shall not be occupied/used until a Validation Report has been completed in respect of that part of the site and submitted to and approved in writing by the Local Planning Authority.
8. No part of the development shall commence until a detailed Arboricultural Method Statement has been submitted to and approved in writing by the Local Planning Authority. No development or other operations shall take place except in strict accordance with the Method Statement as is approved. The Method Statement shall include the following:

Note(s) to applicant

Applicants are advised that compliance with condition no. 05 does not provide an exemption from the statutory nuisance provisions of the Environmental Protection Act 1990. Under the Act dust from any type of activity can be judged to be causing a statutory nuisance to neighbouring properties. A legal notice can be served requiring that the dust nuisance is abated and failure to comply with the requirements of the notice can result in prosecution. The applicant should contact the Council's Housing and Public Protection Department on 01978 315300 for further advice and information.

Further advice on compliance with condition no. 05 may be obtained by contacting the Council's Environmental Protection Team on 01978 315733. Should the investigation identify contamination issues that may affect receptors other than the site users e.g. groundwater, then it is recommended that these works are also addressed in consultation with

the Housing and Public Protection Department prior to commencement of works on site.

The applicant is advised that the Council has the option to control construction noise by serving a Control of Pollution Act 1974, Section 60, Notice where deemed necessary, and failure to comply with such a Notice can result in prosecution. For further information and advice regarding construction noise please contact the Council's Housing and Public Protection Department on 01978 315300.

Further advice on compliance with condition no. 6 may be obtained by contacting the Council's Environmental Protection Team on 01978 315733. Should the investigation identify contamination issues that may affect receptors other than the site users e.g. groundwater, then it is recommended that these works are also addressed in consultation with the Housing and Public Protection Department prior to commencement of works on site.

Burning of waste generated from construction activities is not considered to be an appropriate method of disposal and action may be taken as follows:

- Under the Environmental Protection Act 1990 anyone found disposing of construction site waste by burning is likely to be in breach of their duty of care with regard to waste disposal;
- Under the same Act an abatement notice may be served where smoke is judged to be causing a nuisance to neighbouring properties. Failure to comply with the requirements of the notice can result in prosecution;
- Under the Clean Air Act 1993 it is an offence for a commercial activity to burn anything that gives rise to dark smoke.

To prevent offences under the above named Acts there should be no bonfires on the site, to include the prohibition of the burning of cleared vegetation. The applicant should contact the Council's Environment and Planning Department on 01978 315300 for further advice and information.

The scheme of arboricultural supervision required in connection with condition no.8 and 9 above shall make provision for a pre-commencement site meeting between the Local Planning Authority's Arboriculturist, the Developer/ Applicant/ Agent and their appointed Arboricultural Supervisor to agree matters of detail. It shall specify the

frequency of arboricultural monitoring and reporting to the Local Planning Authority on the status of all tree protection measures throughout the course of the development and make provision for the submission and approval of a satisfactory arboricultural completion statement

The applicant may need to apply to Dwr Cymru / Welsh Water for any connection to the public sewer under S106 of the Water industry Act 1991. If the connection to the public sewer network is either via a lateral drain (i.e. a drain which extends beyond the connecting property boundary) or via a new sewer (i.e. serves more than one property), it is now a mandatory requirement to first enter into a Section 104 Adoption Agreement (Water Industry Act 1991). The design of the sewers and lateral drains must also conform to the Welsh Ministers Standards for Gravity Foul Sewers and Lateral Drains, and conform with the publication ""Sewers for Adoption""] 7th Edition. Further information can be obtained via the Developer Services pages of www.dwrcymru.com The applicant is also advised that some public sewers and lateral drains may not be recorded on our maps of public sewers because they were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist us in dealing with the proposal the applicant may contact Dwr Cymru Welsh Water on 0800 085 3968 to establish the location and status of the apparatus. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its apparatus at all times.
