Quotation

Dear Mr Hampson,

Thank you for your recent enquiry. We have the pleasure of enclosing our quotation as follows to the above address as discussed in our recent survey

To supply and install Rosewood replacement Pvcu Square Fascias with new eaves guard, Barge boards and soffits with new Brown Square gutters and square down pipes to the main roofline and Pvcu Fascia and gutters to the Porch and garage. Includes removal of existing fascias and gutters etc. to a private skip. As discussed the alarm and electric lights etc will need to be taken and replaced by an electrician or alarm company

Total

Vat @ %

Total

Price does not include Grey individual Dry Verge to Gable Ends as we will need to look closer to existing dry verge first as discussed

Not included in the above price - Tagged Scaffolding in accordance Health Safety Guidelines supplied and stilled by MDP scaffolding. Please let us know if you would like us to arrange for MDP to come and provide a scaffolding quotation.

FreeForm Products

A complete solution: Freefoam manufactures a fully integrated suite of products providing a Complete roofline solution based around products that are designed to work together.

A more durable product: Freefoam products are designed to stand the test of time. Having had many years of trouble-free performance in all weathers, from Scotland to the South of France, with its lead-free formulations, Colormax r technology and extra TiO2 UV Protection, Freefoam manufactures products that are proven to last.

A safer, greener option : Freefoam products are 100% lead free and manufactured to the exacting ISO 14001 :2008 standard at its Northampton site.

A choice of colours : Freefoam is the colour specialist. Freefoam's innovative Colormax technology provides ground-breaking color variety, colour matching and colourfastness to produce an unbeatable choice of 10 vibrant colours all with a unique 10 year no-fade guarantee.

An innovative rainwater system: Freeflow is the innovative range manufactured by Freefoam and one of the premium rainwater systems on the market. Freefoam has unique and distinctive features offering all round performance and lasting quality.

Features include:

- . Co-extruded gutter with white interior to reduce heat absorption
- . Highly visible memory retention seals to reduce leaks
- . Protective tape on gutter and downpipes to prevent scratching and waste.

If you place an order with us, we will need to arrange an appointment for a final measure and to confirm order details.

With 10 years insurance backed guarantee

If you require further information, please do not hesitate to contact our office.

Regards,
