

Planning Appeal: Fencing erected at Blythwood, 112 Norman Road, Wrexham, LL13LBE

Supporting Photographs 4

The plan, as given in the enclosed report, is to remove the trellis immediately, in response to resident objections received via the Community Council. We would re-plant with Native hedging behind the fence line and request that the fencing be retained until the hedge has reached a sufficient level of growth to provide a safe and secure barrier. We would also place a chain-link fence through the middle of the hedge, planting either side, which will provide an added level of safety and security for the elderly residents of the property, after the removal of the fence panels.
