Burning of waste generated from construction activities is not considered to be an appropriate method of disposal and action may be taken as follows:

- Under the Environmental Protection Act 1990 anyone found disposing of construction site waste by burning is likely to be in breach of their duty of care with regard to waste disposal;
- Under the same Act an abatement notice may be served where smoke is judged to be causing a nuisance to neighbouring properties. Failure to comply with the requirements of the notice can result in prosecution;
- Under the Clean Air Act 1993 it is an offence for a commercial activity to burn anything that gives rise to dark smoke.

To prevent offences under the above named Acts there should be no bonfires on the site, to include the prohibition of the burning of cleared vegetation. The applicant should contact the Council's Planning & Regulatory Department on 01978 292040 for further advice and information.

All works relating to this development which are audible beyond the site boundary should be carried out only between 7.30 and 18.00 hrs Monday to Friday, and 08.00 to 14.00 hrs on a Saturday, and at no time on a Sunday or a Bank Holiday. Outside these times, any works which are audible beyond the site boundary have the potential to cause unreasonable disturbance to neighbouring premises.

The applicant is advised that the Council has the option to control construction noise by serving a Control of Pollution Act 1974, Section 60, Notice where deemed necessary, and failure to comply with such a Notice can result in prosecution.

The applicant is further advised that any complaints received relating to noise of any type from the development may also be investigated using the Council's Standardised Procedure for Dealing with Noise Nuisance Complaints. This is done under the Statutory Nuisance provisions provided within the Environmental Protection Act 1990, and legal action may be taken where appropriate.

The applicant must adhere to the times given above wherever possible. If however there are urgent or unavoidable circumstances requiring works outside of the specified times, permission to proceed may be sought by contacting Environmental Health and Housing Standards at: heathandhousing@wrexham.gov.uk or 01978 292040. Please use the same

contact details for any other enquiries regarding construction / demolition site noise.

Natural Resources Wales Advice
Environmental Management:

Due to the proximity of the site to watercourses, all works at the site must be carried out in accordance with GPP5 and PPG6: 'Works in, near or over watercourses' and 'Working at construction and demolition sites' which are available on the following website:

<http://www.netregs.org.uk/environmental-topics/pollution-prevention-guidelines-ppgs-and-replacement-series/guidance-for-pollution-prevention-gpps-full-list/>

The activity of importing waste into the site for use as, for example hardcore, must be registered with Natural Resources Wales as an exempt/permittable activity under the Environmental Permitting Regulations 2016. The developer should contact Natural Resources Wales to discuss the necessity for an exemption/permit for any material imported to and exported from the site.

If during construction/excavation works any contaminated material is revealed, then the movement of such material either on or off site should be done in consultation with Natural Resources Wales. Any waste excavation material or building waste generated in the course of the development must be disposed of satisfactorily and in accordance with Section 34 of the Environmental Protection Act 1990. Carriers transporting waste from the site must be registered waste carriers and movement of any Hazardous Waste from the site must be accompanied by Hazardous waste consignment notes.

Detailed advice has been issued by Welsh Water which is available on the Council's website
