

Waste Management Strategy – 1-2 High Street, Wrexham, LL13 8HP

Planning Permission ref. WRR P/2020/0660

Condition 5 states that:

Prior to commencement of development, a Waste Management Plan for the commercial and residential uses hereby approved, shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the details as are approved and thereafter maintained for the lifetime of the development.

The client has allowed for a single 1,100L euro bin to be shared between the residents and the ground floor unit. The bin will be stored to the rear and will only be put on the street on waste collection day.

The images above indicate where the bin will be stored and the access to the rear.
