

Ecological Site Supervision/Watching Brief

What does it cost?

Ecological Supervision/Watching Brief	Fees
Ecological Site Supervision/Watching Brief for site vegetation clearance/roof strip/roof repair works - including letter style report & tool box talk	£539+VAT (per day) <i>Site visit begins ASAP: guaranteed within 15 working days.</i>

Why do Arbtech offer different delivery timescales?

Throughout 2016, we asked clients for feedback concerning how quickly wanted their survey.

In response to enormous demand for hastily undertaken ecological surveys during 2016, we have completely reorganised how we resource surveys, and can now offer upgrade services over the standard turnaround, for time-pressed clients:

“Rapid” and “Next Working Day/Weekend”

Our hope is that by providing these options, if you’re really up against it, we are able to help you eliminate the cost, delay, and hassle of withdrawing your application, or having it refused.

In all circumstances, you will be allocated the first available survey slot in our calendar.

Please call **Clare Murphy** on **01244 661170** if you would like to discuss any aspect of this quote, or check our earliest availability for your survey.
