

Planning Appeal: Fencing erected at Blythswood, 112 Norman Road, Wrexham, LL13LBE

Supporting Photographs 5

Interior of the garden on the Norman Road side, illustrating the fact that the fencing is at ground / garden level on the inside of the property, which we appreciate is at odds with the view of the exterior of the garden. Without a safe and secure barrier there is a very real danger to the safety and security of the residents at the property, given the height of the wall should someone fall to the pavement. It is for this reason that we would add chain-link fencing to the hedging. However, we recognise that chain-link is not particularly attractive and would request that the fencing be retained until this is hidden by the growing hedge.
