

P/2021/0058 - MAELOR FOREST NURSERIES LTD (Major) - NRW Response NRW:07140754

Dear Simon

Further to the NRW response dated 4th March, we provide the following comments:

1. An eDNA analysis is going to be carried out in mid-April as soon as the kits are available. Can the mitigation scheme be conditioned?
2. With regards to foul drainage, there will be no intensification of land, the same number of trees will be grown as there is currently.

Kind regards

Rosina
