Dear Sharon

Thank you for the approval of details application and the WSI submitted by Chapel Archaeology.

Unfortunately the WSI omits a number of sections which will need to be added including:

- a) There is no archiving section stating how the archive will be collated and sent to an archive deposition location. Normally the digital archive will be sent to the HER in the form of a high resolution pdf report only and the full digital archive of scanned plans and documents plus the report will be sent to the NMR, RCAHMW
- b) CIFA now require a Selection Strategy and a Data Management Plan to be included in the WSI in the reporting and archiving section - details are here <https://www.archaeologists.net/news/important-updates-4-x-standard-and-guidance-documents-1591692770>
- c) There is no reference to compliance with the HER Submission Guidelines v1 2018 (attached). They should note the requirements to submit a Welsh translation as a non-technical summary at the start of the report.
- d) There is no mention of how finds will be conserved where necessary and in an accordance with which guidelines.

We would therefore need the archaeological contractor to revise the WSI and in light of the above advice and re-submit it for approval.

Kind regards

Mark Walters
